#### **GRAIN FREE**

Suitable for pets with grain sensitivities or intolerances

#### **DIGESTIVE HEALTH**

Pre-biotics to help support digestion. Helps produce smaller, firmer stools

#### **FRESHLY PREPARED**

Made with freshly prepared high-quality protein

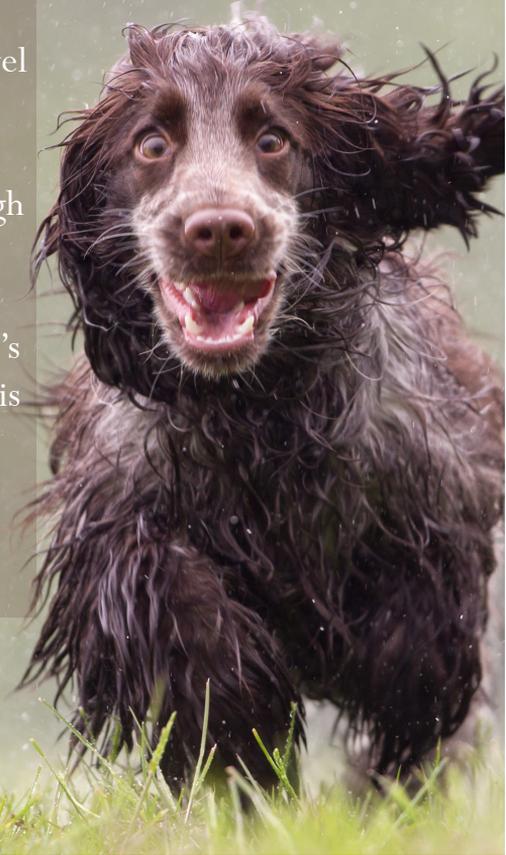

#### **NATURALLY PRESERVED**

No added artificial colours or preservatives. Naturally preserved using rosemary extract

# PUPPY

Puppies require an appropriate high level of protein to support growth and development through this crucial phase in life. This is usually higher than an adult's requirement as this is the fastest development phase within a dog's lifetime.

Analytical Constituents: Crude Protein 29%, Crude Fat 15%, Crude Fibre 3.5%, Crude Ash 8.5%

# LARGE BREED

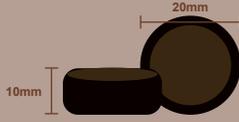

A large black dog with long, shaggy fur is sitting in a grassy field. The dog is looking to the left of the frame. The background shows rolling green hills and some trees under a clear sky. The lighting suggests it might be late afternoon or early morning.

Our large breed recipes are nutritionally complete and balanced and come in a larger kibble size to promote chewing and prevent gorging or fast consumption of food, which could lead to bloating and digestive upset. The size and weight of large breed dogs can put more strain on their joints so we've added a combination of glucosamine, chondroitin & methylsulfonylmethane to support cartilage metabolism and help maintain healthy joints.

**PRODUCT CODE: JGS**

Salmon | Trout  
Kibble Size - (+/- 1mm)

**GRAIN FREE SALMON WITH TROUT,  
SWEET POTATO & ASPARAGUS**

- ✓ **50% Total Salmon & Trout** - Rich in amino acids, vitamins & minerals, and low in fat.

# LIGHT

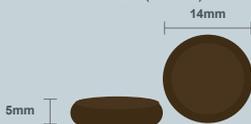

Our light recipes have added L-Carnitine - derived from the amino acid lysine - which promotes fat oxidation that helps to maintain healthy weight and lean muscle mass.

Our light recipes are 15% lower in fat compared to standard adult products in order to aid weight reduction. As it is the calories which are reduced, this does not mean that a pet has to eat less, they can still consume a normal amount of food.

PRODUCT CODE: GFE

Trout | Salmon  
Kibble Size - (+/- 1mm)

## LIGHT GRAIN FREE TROUT WITH SALMON, SWEET POTATO & ASPARAGUS

# SENIOR

Senior recipes are designed to be suitable for those dogs over 7 years old. A senior diet is designed to help support the joints, have a higher fibre content in order to help ‘keep things moving’ and have reduced energy content in order to help prevent weight gain in those golden years.

A careful blend of Glucosamine, Chondroitin and MSM helps support cartilage for healthy joints. These recipes include L-Carnitine, an essential amino acid which can help maintain a healthy weight and lean muscle mass.

**PRODUCT CODE: GFC**

**Trout | Salmon**  
Kibble Size - (+/- 1mm)
